Rise of Public Health

The advancement of sanitation has been important in the history of public health. In 1875, James Arnott and Francis J. Torrance from Ireland founded Standard Manufacturing to make cast-iron water closets, washstands and bathtubs for the growing sanitation and indoor bathroom market.

1870's

Clarence Mott Wodley forms American Radiator Company in 1892.

John Pierce purchases tinwork shop in Massachusetts in 1872. Forms Standard Sanitary in 1899.

AMERICAN RADIATORS

1910's

Expanding The Product Line

In 1913, American Sanitary purchased the Great Western Pottery Company and began producing enameled porcelain products. The company began selling a complete line of cast-iron enameled kitchen sinks in 1917 after a successful launch at the Pittsburgh Annual Exposition.

1890's

The Growth of The Modern Bathroom

Alongside Standard Manufacturing, two companies producing enameled sanitary products were growing steadily. The first was Dawes & Myler Manufacturing which was founded by ex-Standard Manufacturing staff, Edward L. Dawes and William A. Myler. The other was Ahrens & Co. In 1899, the two companies merged to form Standard Sanitary, which led the expansion of the bathroom market and made modern bathrooms accessible to all.

Standard Sanitary

1930's

Mega Merger Forms One-Stop Shop

While Standard Sanitary dominated the sanitation and plumbing industry, American Radiator, led by Charles Woolley, was the world's largest supplier of heating equipment. In late 1929, both companies merged to form American Radiator & Standard Sanitary Corporation, creating a single source for heating and plumbing products.

AMERICAN RADIATOR

&
Standard Sanitary CORPORATION

1900's

Cornering The Market

By 1900, Standard Sanitary had become the world's largest supplier of plumbing goods; producing more than 150 bathtubs per day. American bathroom was modernizing with the country devoting resources to public sewage and bathrooms began moving indoors rapidly.

Standard Sanitary's "Royal Altion"

"Standard" PLUMBING FIXTURES

The Sanitary Advantage

In 1883, Standard Manufacturing perfected a process to coat pulverized enamel onto hot castings to form a smooth, white surface that was easy-to-clean and impervious to water—preventing corrosion and bacteria from forming and multiplying on the sides of metal tubs.

John C. Reed developed a process he patented to enamel tubs quickly and helped Standard Sanitary rise as the nation's plumbing leader.

1880's

1940's

Supporting The War Effort

By 1943, American Radiator & Standard Sanitary virtually halted all peacetime production to supply the armed forces with critical parts and munitions including the mold and castings for the B-29 Superfortress bomber. By war's end, the company had produced more than 2.5 million hand grenades and 75 million cast-iron nose pieces for bombs. A shortage of labor and materials in the post war years forced the company to put products on allocation as demand far outpaced available production.

American Radiator & Standard Sanitary advertised hope during wartime production.

1920's

The Bathroom Comes of Age

White has been the color of choice in American bathrooms. It was clean, bright and sanitary. But in 1926, color made its first appearance in bathroom fixtures from Standard Sanitary. Suddenly style entered the bathroom with a new attitude that made it an integral part of home décor.

1950's

Peacetime Boom

The housing industry recovered quickly after WWII, as affordable housing was required for millions of returning war veterans. The new suburbia was born, and with it the expansion of plumbing products. In 1951, American Standard had moved into the kitchen; introducing valves, base and specialty cabinets, automatic dishwashers and electric food waste disposers.

Fresh Ideas For a New Generation
In 1951, American Standard joined the LIXIL group, increasing revenues to over \$16 billion. LIXIL is one of the world's leading building products companies. With annual sales of \$16 billion, LIXIL is the leading market position in windows, doors, exterior curtain walls along with kitchen and bathroom products.

AMERICAN-Standard

1990's

We Want You to Love Your Bathroom

Americans turned their attention to creating stylized living spaces that offered a sense of comfort, retreat and relaxation. American Standard joined the renaissance by acquiring Porcher, a French-based luxury brand and a German-based faucet brand called JADO. In addition, new suites and product lines were added to attract stylish consumers.

TODAY

LIXIL

Link to Good Living

1970's

Turbulent Times

By 1971, American Standard sales reached \$1.4 billion with 70,000 employees. Despite a turbulent economy that led to a decade of controlled growth and expansion, the company grew worldwide. By 1979, it was operating in more than 20 countries and claimed the title as the world's largest plumbing manufacturer.

Refurbished Radabro Building

Clean is the New Green

Innovation is our top priority at American Standard. Our latest introductions bring new levels of style and performance to our customers and continue to raise the standard of comfortable, beautiful, healthy and convenient living.

DOUBLE VORTEX
Maximum flushing performance, minimum water usage

PROGUARD
Guards against water stains

1980's

The Go-Go Days

By the eighties, sales reached a record high of \$2.7 billion and innovation continued to drive market leadership. The company introduced Americast® in 1987, a game changing material that was lighter than cast-iron and more durable than enameled steel, and the Sensorium, the first tub with electronics that controlled in-home appliances.

Made of three layers, enamel, metal and composite backing, this is no ordinary tub. Americast® is lighter than cast-iron and just as strong, making tub installation easier.

New Products For a Modern World

The sixties was a growth era for American Standard. The company expanded its product offerings, and ventured into new markets and technologies. Innovations included the now ubiquitous "push and pull" faucets, slip-resistant bathtubs, odor-removing Vent-Away toilet systems and remote control drain pop-ups. In 1968, a technological breakthrough in ceramic disc valves was added to American Standard faucets – promising leak-free performance.

Years of trouble-free performance were made possible through American Standard's patented ceramic-disc technology and washerless faucets.

2000's

Creation of American Standard Brands

American Standard Companies, Inc., the parent company of American Standard announces break up. In 2007, Bain Capital purchased American Standard Global Bath and Kitchen business while Sun Capital bought over American Standard Americas, which led to the creation of American Standard Brands that included the integration of Eljer, Crane Plumbing and Fiat, all Sun Capital companies.

Acacia Evolution

Collection

Evolution itself is in a constant state of change, morphing into more relevant form to adapt to time and space. After a decade of enduring and celebrated success from its Acacia predecessor, Acacia Evolution marks the dawn of a new era. In a time where technology defines the way we interact, work and live, Acacia Evolution is designed to meet these needs. Where design and technology co-exist symbiotically, blurring the lines of form and function.

SHOWER TOILET

Acacia Evolution Shower Toilet

Inspired by form and simplicity, Acacia Evolution's integrated toilet is elegantly sculptured. This deluxe one-piece tankless toilet is designed with a combination of ergonomic principles and glamorous form. With curves that perfectly contour your body, technologically equipped and revolutionary enhancements, provide the ultimate comfort and hygiene.

KEY FEATURES AND FUNCTIONS

FULLY AUTOMATED SYSTEM

AUTO SEAT & COVER

A sensor detects your presence, and automatically opens (and closes) the lid.

AUTO FLUSH

Identifies the type of flush based on the time spent on the shower toilet.

HYGIENIC CLEANSING

DUAL NOZZLES

Equipped with dedicated front and rear cleansing nozzles.

POSTERIOR CLEANSING

Offers a strong, direct spray for a thorough cleanse.

FEMININE AIR BUBBLE SOFT CLEANSING

A gentle flow of warm aerated water provides a soothing shower that's gentle enough for a woman's delicate areas.

MASSAGE

The spray alternates between strong and mild sprays, creating a massaging effect that indulges the user.

COMFORT TECHNOLOGY

INSTANT HEATING SYSTEM

Instant heating system offers instant and constant warm water for comfort.

HEATED SEAT

Temperature can be easily adjusted for comfort.

DEODORIZER

The deodorizer is activated as soon as the user is seated.

DRYER

Temperature can be easily adjusted for comfort. Computer-memorized settings allow one to keep the same settings as the previous user's.

ANTI-BACTERIAL PROTECTION

Uses anti-bacterial resin on seat, cover, nozzle and remote control. Certified to SIAA ISO 22196 standard for anti-bacterial efficacy (seat only).

SLOW CLOSING SEAT & COVER

Gentle and quiet closing action.

REMOTE CONTROL

All bidet functions can be easily operated via a handy remote control.

EASY TO CLEAN

SIPHON JET

Cleans the bowl thoroughly with a powerful siphon flushing system.

WATER SAVING

Uses only 3.5L for half flush and 5L for full flush.

SELF CLEANING NOZZLES

Nozzle tips are rinsed with water before and after every use.

NOZZLE SHUTTER

A nozzle shutter prevents waste materials from getting to the nozzle tips, thus ensuring better hygiene.

QUICK-DETACH SEAT COVER

The design of the seat cover allows it to be easily detached for convenient cleaning of hard-to-reach areas.

ENERGY SAVING

ONE-TOUCH POWER SAVER

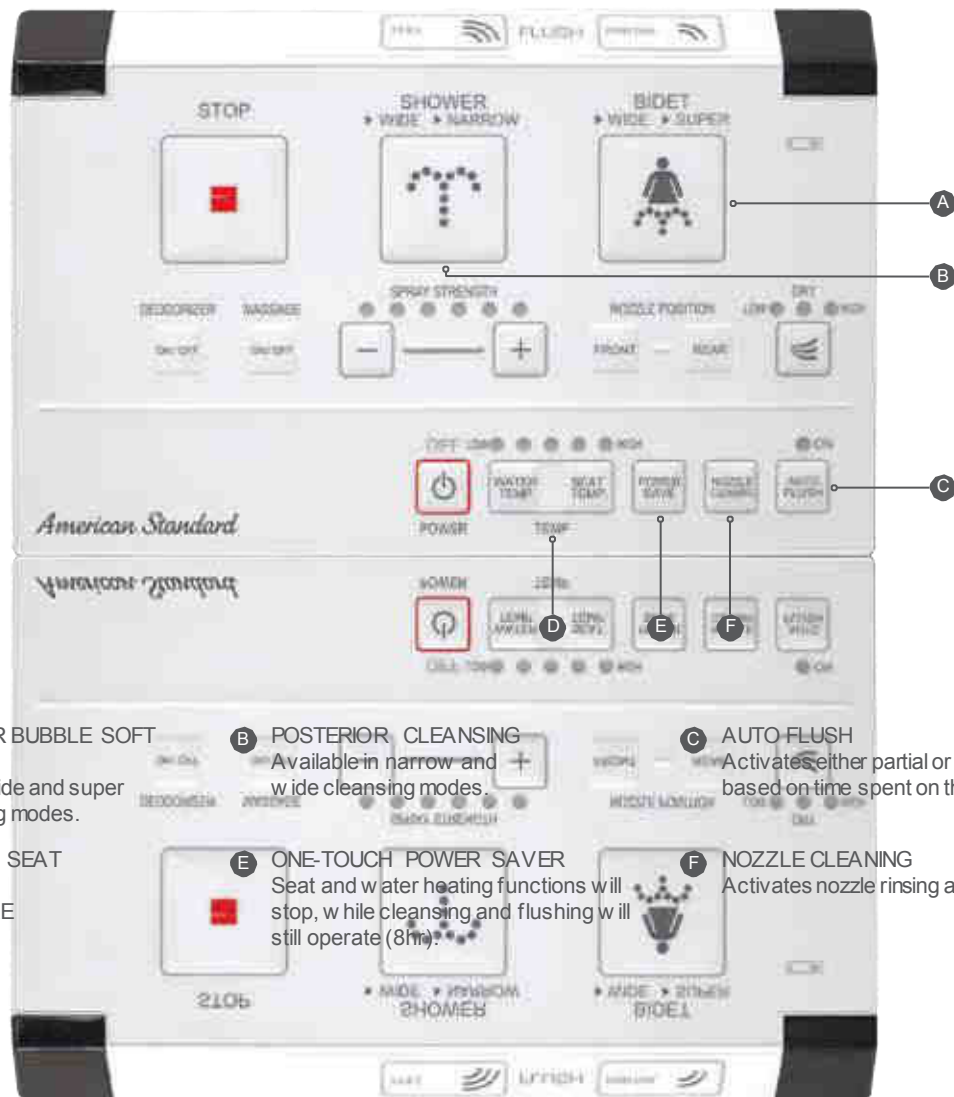

Under the power saving mode, water heating and seat heating functions will stop, while cleansing and flushing will still operate. Machine will resume to original settings after 8 hours.

Features

ELECTRICITY FREE
No need of electricity and reliable.

SAFE TO USE

DUAL CLEANSING

It has two modes: posterior and female. It meets different cleansing needs. It's tissue-free & hygienic.

QUICK DETACHABLE
Simply press side button to detach. This makes it extremely convenient for cleaning and maintaining.

SELF-CLEANING

Automatic water makes it convenient to clean water jets after and before usage. Prevents dirt from sticking, leaving it clean and hygienic.

SUPER SLIM DESIGN

60 mm super-slim design well integrated as normal toilet seat cover.

raising the Flushing Standard

Powered by
DOUBLE VORTEX
2.6/4L

Maximum Flushing Performance,
Minimum Water Usage

The design of the bowl propels the water forward and creates a strong flushing momentum.

100% of the water is ejected
through two water openings.

Momentum and power are
created by the design of the bowl
and force of the water.

The resulting 'vortex' of water
cleans the entire surface of
the bowl.

AIRNERGIZE OVERHEAD SHOWER

STAINLESS STEEL SHOWERHEAD

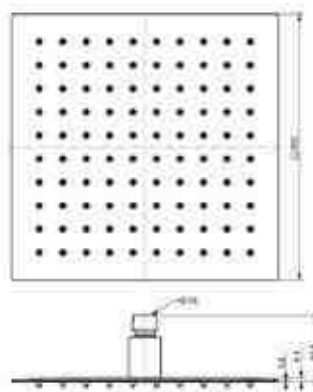

The elements of Air and Water are great gifts from nature. Though vastly different, the combination of the duo conjures a powerful world of emotion. And that is something we will like to bring to you in your private shower enclave. Thanks to our thoughtful Airnergize Technology which infuses water droplets with air, you are wrapped in a full shower spray and still assured of lesser water usage.

- Less water, luxurious water performance
- Corrosion-resistant showerhead
- Ultra-slim at 2mm of edge thinness
- Smart Limescale Cleaning
- Available in 200, 250, 300mm Square showerheads

SLIM IN SILHOUETTE, BIG ON WATER PERFORMANCE

STAINLESS STEEL SHOWERHEAD

Made from 304 Stainless Steel (a highly corrosion-resistant material), and at just 2mm of edge thickness, the Airnergize Ultra Slim Overhead Shower is slim in silhouette but big on water performance. Treat yourself to a full shower pleasure with the Airnergize showerhead. Flexible silicon nozzles ensure limescale deposits are easily rubbed off in an instant.

- Less water, luxurious water performance
- Corrosion-resistant showerhead
- Ultra-slim at 2mm of edge thickness
- Smart Limescale Cleaning
- Available in 8", 10" and 12" Round showerheads

OxYGENATING VIGOUR

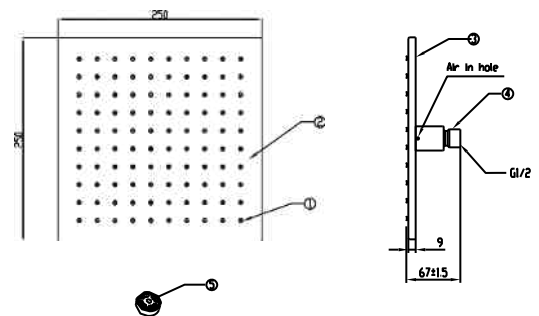

What happens when air meets water? Imagine thousands and thousands of water bubbles raining down on you, gliding effortlessly off your skin. Bask in the therapeutic drumming of air-infused water droplets that are individually bubble-wrapped with the pure goodness of oxygenating vigour. A sensorial wake-up call from 'air-nergetic shower'.

AIRNERGIZE bathes you in air and water energy. Jump start your day with an invigorating body wash, or simply wind down while enjoying the luxurious spray it offers.

WINNER OF THE 2016 RED DOT AWARD FOR PRODUCT DESIGN

uNIVERSAL u-BOx DISAPPEARS INTO THE WALL

American Standard now offers you a stylish and **flexible installation** to help achieve your dream **bathroom. The Universal Box** cleverly disappears into the wall, saving you space and allowing you to update your **bathroom with beautiful concealed shower fittings.**

Because we understand that shower fittings that are flushed with the wall equal a more inviting space. We want you to have more room to move around in your **bathroom, for that is your own divine relaxation space.**

Universal Installation Box
FFAS0625-000990BF0

Compatible With
Acacia E, Nobile, La Moda, Castello Bath & Shower Diverters

Besides allowing you to alternate mixer designs efficiently, the Universal box is suitable for different type of walls from thick to dry walls, as well as pre-fabricated housing systems.

You can even install the Universal Box first, and decide on a mixer design at a later stage. The Universal Box offers you freedom of choice, and is compatible with designs ranging from shower mixers to bath & shower mixers and thermostatic mixers.

Easy to install and maintain, this concealed installation provides greater flexibility for anyone building, planning or just looking to renovate.

Not only will you love it for the flawless look it produces, but your plumbers and guests will too.

Hidden from sight. Never cramping your style.
