

**BOMBAY TILES**

# We believe in the power of water.

Each day, we study the ways in which people interact with water. We learn from our observations. And then, we innovate.

Working in tandem, our engineers and designers merge new technologies with equally novel product designs. We ensure durability, by testing our products again and again—backing them with comprehensive warranties, and a wide selection of repair and replacement parts. And every step of the way, we focus on sustainability.

By constantly crafting bold styles and revolutionary technologies, we are creating a better way to experience water.

# A global brand with a focus on innovation.

Our distinctive blend of brand, service and innovation has led to international success. Around the world, our faucets and accessories are produced, sold, distributed—and selected—for use in the finest, most innovative projects, to create an experience like no other.

# 50s

Alex Manoogian developed the first successful single-handle washerless ball valve faucet.

# 60s

Expanded single-handle line to bath and showers.

Expanded single-handle line to bath and showers.

TRUMP OCEAN CLUB INT. PANAMA

TIANJIN SHERATON HOTEL, CHINA

"I don't like callbacks. That's why I use Delta."

# 70s

First to advertise to plumbers and consumers.

# 90s

Finishes expanded to include Brilliance® Anti-Tarnish Finish.

In2ition® Showers deliver water where you need it the most.

# 10s

Touch2O® Technology is the first to allow you to touch a faucet on and off.

# 80s

The first pull-out faucet introduced.

# 00s

H2Okinetic® Technology changes the way water moves—and feels.

The first pull-out faucet introduced.

CITY CENTER, Las Vegas, USA

VENETIAN, Macau

STADIUM ARENA DAS DUNES, Natal, BRAZIL

RITZ CARLTON, THE RESERVE RESORT UBUD, Bali, INDONESIA

A man is shown from the back, showering in a modern bathroom. He is holding a handheld showerhead in his right hand, and a large rain showerhead is positioned above him, spraying water. The background is a dark, textured wall. The overall mood is clean and refreshing.

# Experience Innovation In Your Daily Life

Delta® Faucet was founded on innovation. And we've been re-founded on innovation each day since. Our products for the bathroom and kitchen explore new avenues in design and technology, helping you clean, refresh, and relax yourself any way you like.

### Touch2O.xt™ Technology

Touch it on. Touch it off. Or go completely hands-free. The choice is yours. Touch2O.xt Technology gives you the freedom to choose how you interact with your faucet. It also helps you keep your faucet clean—even when your hands are messy—and reduces water consumption.

### H2Okinetic™ Showers

H2Okinetic showerheads, body sprays and handshowers contain internal systems that sculpt the water into a unique wave pattern and create larger droplets that retain heat longer – creating the feeling of more water without using more water.

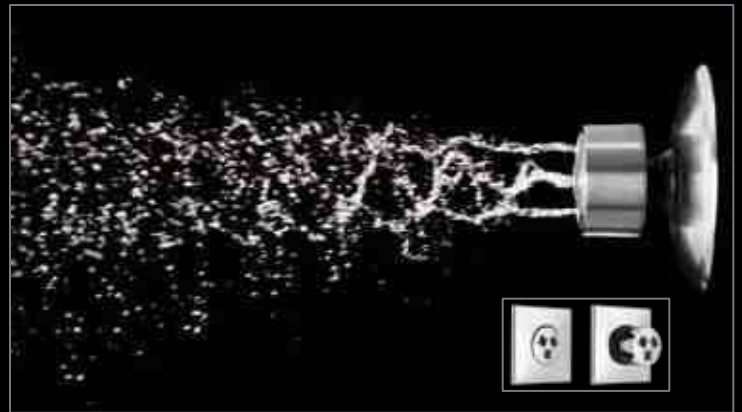

### In2ition® - Two-in-One Shower

It is two showers in one beautifully convenient package. Simply use as a showerhead, or remove to use as a handshower.

### Temp2O™ Showerhead and Handshower

Get the right temperature before you get in the shower. The LED display shows the temperature as well as specific color for the temperature range. The display is powered by the water flow and requires no batteries. Additionally it comes with six spray settings and Touch-Clean® spray holes from which you can easily wipe away calcium and lime buildup.

### HydraChoice™ Body Spray

Our recessed HydraChoice Body Sprays don't pop out until you pop in the shower. They're part of our HydraChoice Body Spray System, which lets you adjust the angle of the spray by 50° in any direction. That adjustability lets you customize your shower experience for maximum comfort (and really comes in handy when one member of the family is 5'6", and another is, say, 6'2").

### MultiFlow™ Technology

### MagnaTite® Docking

### DIAMOND™ Seal Technology

## How to find smart features

As you read this catalog, look for these simple icons, which make it easy to identify any product's technological features.

 = DIAMOND™ Seal Technology

 = MultiChoice® Universal

 = DIAMOND™ Valve

 = MultiFlow™ Technology

 = Flexible Flow Spout

 = Swivel Aerator

 = InnoFlex® PEX Waterways

 = Touch2O® Technology

 = MagnaTite® Docking

 = Touch2Qxi® Technology

= Water-Efficient Product

Kitchen Faucets: flow rate of 5.7 l/min. or 6.8 l/min. versus Industry Standard ASME A112.18.1/CSA B125.1 of 8.3 l/min.

Lavatory Faucets: flow rate of 5.7 l/min. versus Industry Standard ASME A112.18.1/CSA B125.1 of 8.3 l/min.

Showerheads and Handshowers: flow rate of 5.7 l/min. or 7.6 l/min. versus Industry Standard ASME A112.18.1/CSA B125.1 of 9.5 l/min.

# We use water to create a retreat.

We believe that all bathrooms should offer a calming refuge from the chaotic world outside. Since our company was founded, we've steadily created innovations—in style, and in technology—capable of transforming any lavatory into a calming, revitalizing blend of form and function.

# Experience Innovation in the Bath.

From the beginning, the Delta Faucet Company commitment to innovation has created and refined truly groundbreaking technologies, that ease and simplify the daily lives of their users.

## TOUCH2O® AND TOUCH2OXT® TECHNOLOGY

### Touch it on. Touch it off. Or go completely hands-free.

Touch2O® Technology lets users start water flowing with a light tap anywhere on the spout or handle. Turn on hands-free Touch2O.xt® Technology, and the entire faucet acts as a sensor, starting water flow automatically when hands get within four inches (and stopping when hands are withdrawn). It's a technology that gives you more convenience, while using less water.

## DIAMOND™ SEAL TECHNOLOGY

### Reliability that lasts a lifetime.

When you combine our tough, DIAMOND™ Valve with InnoFlex® PEX waterways, you get our patented DIAMOND Seal Technology. Delta® faucets featuring DIAMOND™ Seal Technology are built to last a lifetime.

Our patented DIAMOND™ Valve is embedded with real diamonds to deliver incredible durability and reliability through the life of a faucet. In fact, our faucets are designed and tested to last 10 times longer than the industry standard.\*

### Leak-Free.

Our DIAMOND™ Valve features no dynamic seals and reduces the chance of leaks to near zero.

### Longer Lasting.

Engineered to last up to five million uses.

\*Industry standard based on ASME A112.18.1 of 500,000 cycles.

### Lead-Free.

Once inside the faucet, water does not come in contact with potential metal contaminants.

### Less Hassle.

Includes a minimum of 32 inches of waterways, which saves the cost of additional supply lines.

## SWIVEL AERATOR

### Water where you need it.

Our swivel aerators offer adjustability of water flow in any direction – up to 6° for lavatory faucet. Now, you can direct the water flow to exactly where you need it.

# ZURA™ BATH COLLECTION

Answering the consumer call for a modern, urban bath design, the Zura™ bath collection delivers a precise marriage of rounded, rectangular and triangular elements. The geometric shapes blend effortlessly together, creating a collection that is every bit as contemporary and sophisticated as it is innovative.

# The best showers rejuvenate as they clean.

Our showerheads, handshowers and body sprays offer a variety of styles and spray patterns, transforming any bathroom into a comforting, cleansing oasis.

# EXPERIENCE INNOVATION IN THE SHOWER.

## H2Okinetic® Showers

Delta H2Okinetic Technology sculpts water into a unique wave pattern that delivers more warmth, intensity, and coverage—without using more water than a standard shower.

## In2ition® Two-in-One Shower

The In2ition Shower features a detachable handshower, which can run separately from or simultaneously with the showerhead, giving you the warmth and flexibility of two streams of water at once.

## HydraChoice™ Body Spray System

Experience the next generation custom showering.

Body Spray don't pop out until you pop in the shower. They're part of our HydraChoice™ Body Spray System, which lets you adjust the angle of the spray by 50° in any direction. This adjustability lets you customize your shower experience for exactly where you want it - whether you are 5'6" or 6'2".

## Temp2O® Technology

Take the guesswork out before you get in.

# We're changing the shape of water.

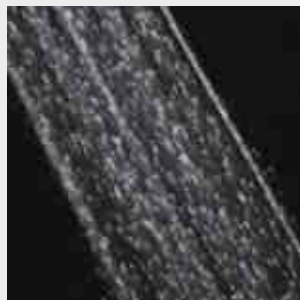

There are few experiences more personal than a shower. And Delta® offers you a range of showerhead and handshower spray patterns, to help you create a more customized showering experience. To identify spray settings on products in the bath and shower sections, look for the icons and their spray patterns visualized here.

**Adjustable Full Body Spray (AF)**  
Adjust the water flow for a harder or softer spray.

AF

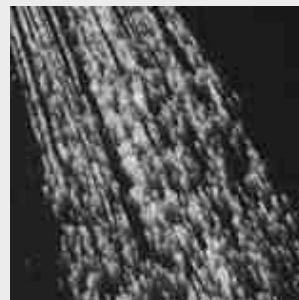

**Adjustable H2Okinetic® Spray (AH2O)**

Allows for full flow or water-efficient spray.

AH2O

**Full Spray with Massage (FSM)**

Consistent pressure from outside spray holes, plus soothing, pulsating spray.

FSM

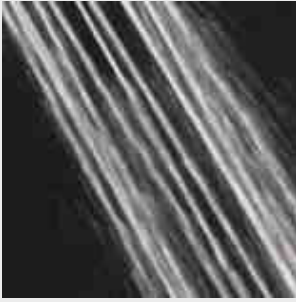

**High-Efficiency Spray (HE)**

Provides full coverage and feels like greater water pressure at lower flow rates.

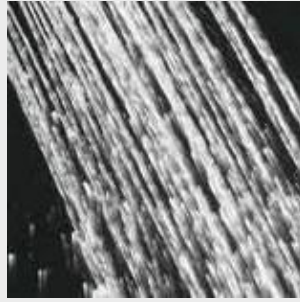

HE

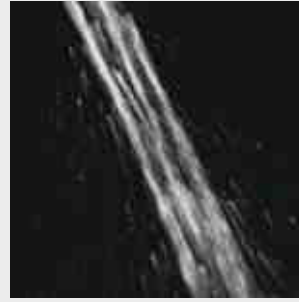

**Shampoo Rinsing Spray (SR)**

Strong, full body spray.

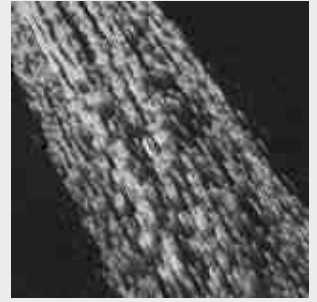

**Shampoo Rinsing with Massage (SRM)**

Strong, full body spray plus a pulsating spray.

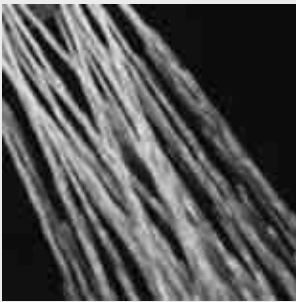

**Slow Massage (SM)**

Soothing, pulsating spray.

**Soft Drench Spray (SD)**

Soft, aerated, soaking flow of water.

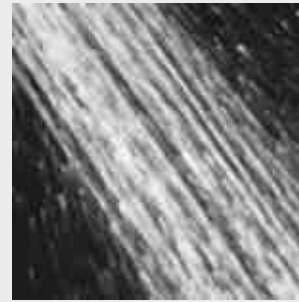

**Crossing Full Spray (CF)**

Consistent pressure from all spray holes with crossing streams for more coverage.

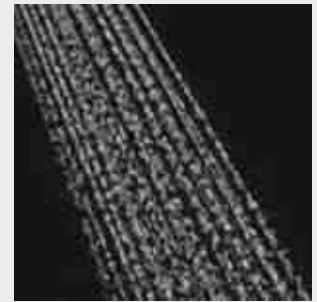

**Crossing Full Spray with Massage (CFM)**

Coverage of crossing full spray with addition of a soothing, pulsating spray.

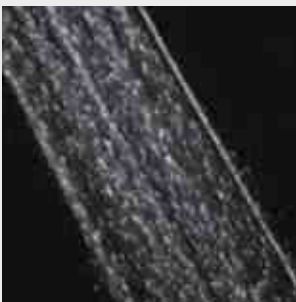

**Fast Massage (FM)**

Strong, pulsating spray.

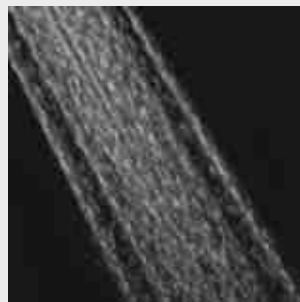

**Full Body Spray (FB)**

Consistent pressure from all spray holes.

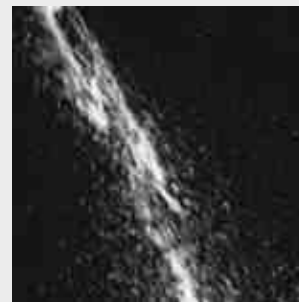

**HzOkinetik Spray (H2O)**

Large drops and dense, wide spray pattern create a blanket of water.

**HzOkinetik Spray with Massage (H2OM)**

Large drops and dense spray pattern, plus a pulsating spray.

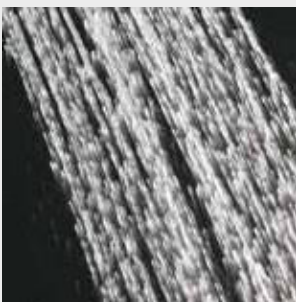

**Massage Spray (M)**

Soothing, pulsating spray.

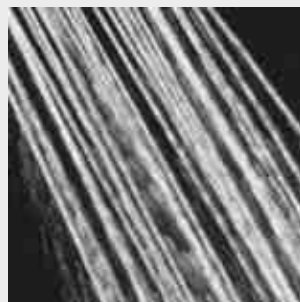

**Pause (P)**

Reduces water flow to a trickle.

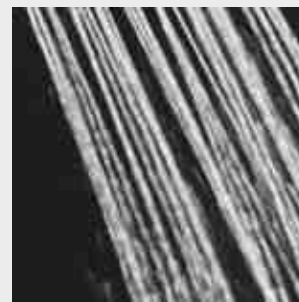

**Soft Drench with Full Spray (SDF)**

Soft, aerated, soaking flow of water with additional sprays to provide fuller coverage.

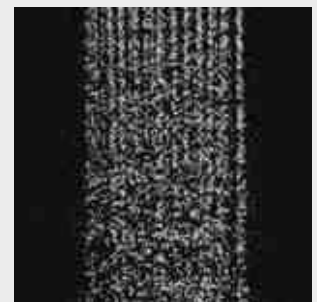

**Soft Drench with Massage (SDM)**

Drenching full spray plus a pulsating spray.

**Soft Full Spray (SF)**

Soft, consistent pressure from all spray holes.

**Soft Rain Spray (SRS)**

Gentle fall of water that feels like a soft, spring rain.

# Custom Showers

When you create a custom Delta® shower, you're fashioning an experience all your own, that gives you precisely the indulgence you want.

# DEFINING YOUR VISION

As you begin to plan your custom shower, consider the following:

- Do you want an exhilarating experience to start your day? Or relaxation at the end of a stressful day?
- Who will use your shower? Only adults, or children as well?
- Do you want an enclosure? Or a combination of full and half walls?
- What is your budget?
- Do you want a minor update, or a complete renovation?

# CONSIDERING COMPONENTS

Different kinds of components offer different experiences—and different combinations.

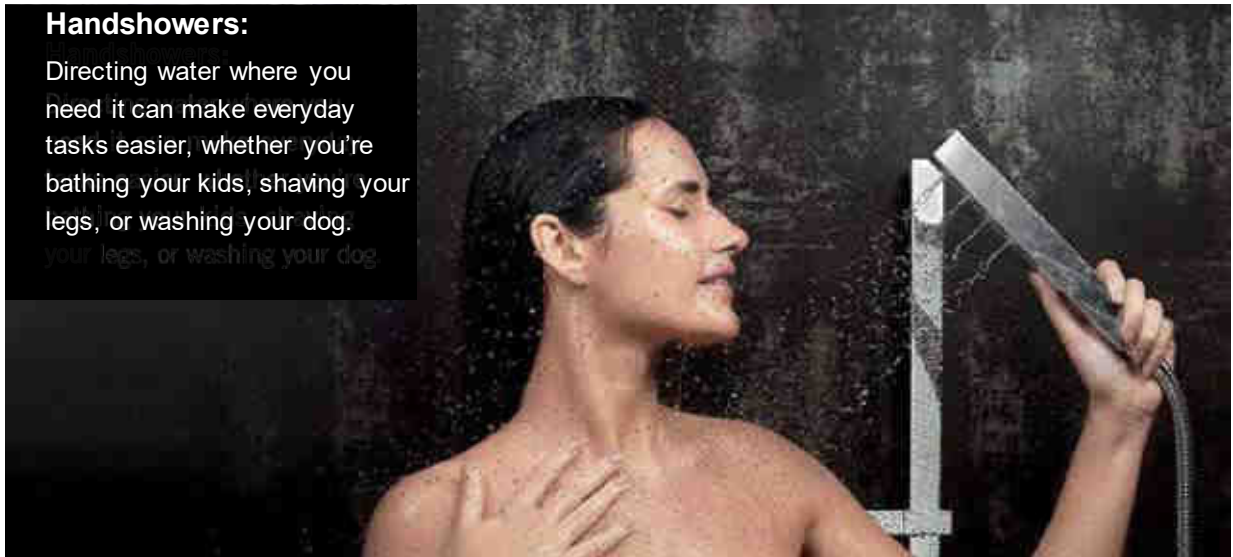

## Showerheads:

Experience sensations from falling rain to invigorating, full-body coverage.

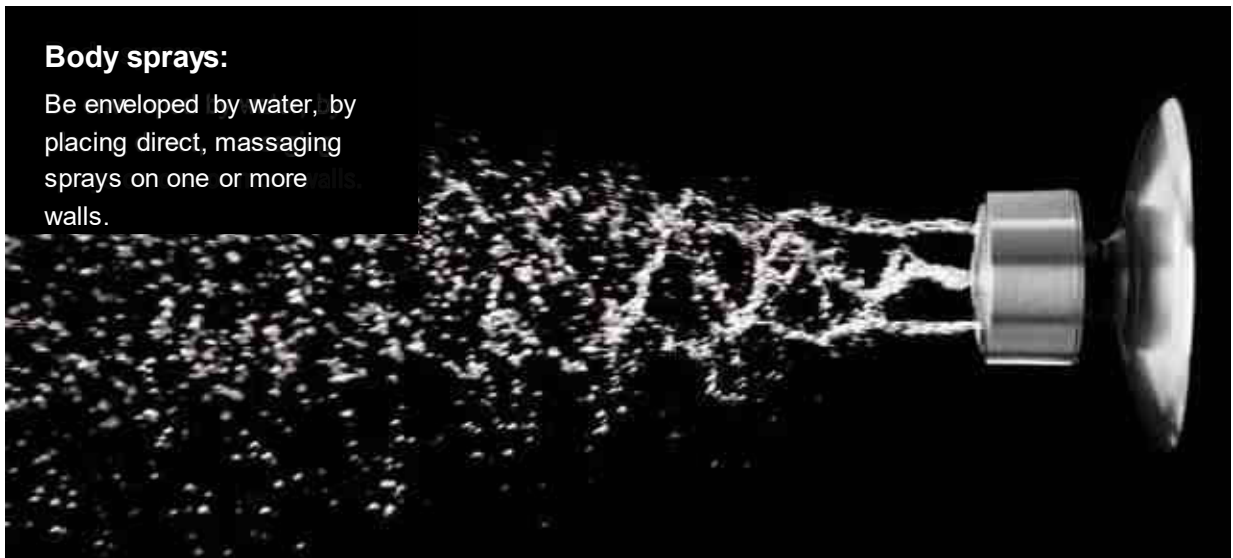

## Handshowers:

Directing water where you need it can make everyday tasks easier, whether you're bathing your kids, shaving your legs, or washing your dog.

## Body sprays:

Be enveloped by water, by placing direct, massaging sprays on one or more walls.

Note: The more outlets (showerheads, In2ition® Showers, body sprays or handshowers) you have in your shower, the greater the amount of water pulled through your valve. If you have too many, the spray may be softer, and have less pressure.

# CUSTOMIZE YOUR SHOWER EXPERIENCE

### TempAssure® Thermostatic Custom Shower System

If you want to transform your bath with a rejuvenating, spa-like shower customized to your preferences, you may prefer a Custom Shower.

- Select up to four body sprays in addition to a handheld, In2ition Shower or additional showerhead.

# SHOWERHEADS

---

Flow rates are measured at 80 psi  
 All showerheads come without shower arm and flange, unless indicated otherwise.
