Size: L 225 X H 67 X T20 mm

Inspired from the traditional brick of the Cambridge area of the United Kingdom.

Made by the traditional method which involves throwing of the clot of clay in a mold box fushed with fine sand, every clot of clay that strikes the mold does so in a slightly diferent way which leads to a diferent texture for

every brick. A mix of various natural oxides is gently slipped on the surface to create a charming aged look especially resembling architecture at the beginning of the industrial age in Europe This is a beautiful yet amazingly strong Brick, crisp in shape and can be used to create world-class structures for generations to come.

- *Old farmhouse look*
- *Weathered beauty*
- *Unque colour variation*
- *Timeless beauty*
- *Amazing texture*

***Specifications:**

Weight: 0.7 Kg
